

Polyco Rigmaster Double Palm Rigger Gloves

Product Images

Description

The Polyco Rigmaster Double Palm Rigger Gloves are designed with double thickness of leather on the palm, forefinger and front of the thumb for increased safety and durability for the wearer. The Rigmaster Double Palm Rigger Glove's fleece-lined palm provides additional protection and optimum comfort to the wearer. Additional layers of chrome leather are sewn into key danger areas meaning the Rigmaster gloves offer maximum EN388 scores for abrasion, tear and puncture resistance
