

Superior UltraSolv Rigid Round Tip Swabs

Product Images

Description

The Superior UltraSolv Rigid Round Tip Swabs feature high strength and abrasion resistant foam tips minimising particle shedding due to abrasion, common with standard swabs

- Extremely low ionic and NVR levels
- Less than 2000 .5 μ to 25 μ particles per swab
- Thermally bonded to ensure no adhesive residue and minimum particle generation
- Handle Material: Polypropylene
- Handle colour: Blue
- Head Material: UltraSolv Foam
- Unit: Pack 500
- ESD-Safe versions available with static dissipative swab tip and handle
