

3M Peltor X3 Ear Defenders

Product Images

Description

3M's Peltor X Series Ear Defenders have been built with design, comfort and protection in mind. The Peltor X3 Ear Defenders are designed to provide protection against high noise levels for example forestry or heavy engineering

- 3M Peltor X3 utilises a newly designed space to help improve attenuation without the need for double cup design
- New design increases the space inside the cup for greater comfort and wearability
- High attenuation from a single cup design
- Headband is electrically insulated
- Lightweight and slim compared with similarly attenuating products
- SNR: 33dB
- Colour: Black/Red
