

Master Lock Select Access Key Storage PS

Product Images

Description

- Master Locks Select Access is the safest place for your key
- Shackle size 37mm H x 48mm L will fit around standard door knob sizes
- It secures keys and allows you to share them with the select few people you give the combination to
- Ideal for children after school, carers, or selected access to building sites
- Die-cast body resists hammering and sawing
- The resettable combination can be regularly changed
