

Swingback Reflective Plastic Bollard

Product Images

Description

- The swingback post is the ideal solution where you need a spring loaded post - without a spring that can corrode over time. Instead it uses heavy duty elastic cord allowing it to flex and return back to position
- Comes complete with conforming Sealbrite Sleeve, compliant to BS873 II
- Ideal for delineating traffic in areas such as airports, car parks, docksides etc
- UV stabilised HDPE ensures a long life in any conditions
- Unibase and fixings sold separately
- 75CM
