

Texwipe CleanFoam Large Flexible Head Swabs

Product Images

Description

Texwipe's CleanFoam® Large Flexible Head Swabs have been constructed with a complete thermal bond to eliminate adhesive contamination from a high-quality polyurethane foam. Completely cleanroom processed and packaged, the CleanFoam® Large Flexible Head Swabs provide low levels of non-volatile residues and ions, making them the perfect choice for critical cleanroom environments

- 100 ppi CleanFoam® polyurethane foam head
- Flexible nylon head paddle
- Medium, 100% virgin polypropylene handle
- Thermal/epoxy head bond
- Good chemical compatibility with a variety of solutions
- Readily absorbs solutions and solvents and grabs particulates
- Autoclavable in dry heat and steam
- Lot-coded for traceability and quality control
- For use in biologics, medical device, microelectronics, optics, pharmaceuticals and semiconductor industries
- Ideal for applying and removing adhesives, lubricants and other solutions
- Perfect for cleaning intersecting surfaces and joints and with compatible solvents and solutions
- Great for removal of excess materials or debris, scrubbing recessed areas and picking up fine powders
