

Texwipe Stat-Rite ESD-Safe Sticks

Product Images

Description

Texwipe's Stat-Rite® ESD-Safe Sticks are made from Texwipe's very own IDP (Inherently Dissipative Polymer) Stat-Rite® handle to provide a clean, ESD safe swab. Manufactured using high-precision automated processes with a precision tip, the Stat-Rite® ESD-Safe Sticks are perfect for critical cleanroom environments

- Semi-rigid precision point tip
- Long, clean ESD-Safe Stat-Rite® handle
- Packaged in an anti-static bag
- Lot-coded for traceability and quality control
- Dissipates charges in under two seconds when used with a solvent or solution
- For use in environments where ESD may be a concern
