

# Scafftag Forkliftag® Safety Management System

## Product Images

---

## Description

---

Forkliftag® is a daily preventative safety management system for forklift trucks. The holder should be attached to the inside of the truck cab and the daily inspection procedures carried out by the first authorised user of the truck

### Three Step System:

1. Forkliftag® holder displaying “DO NOT USE”
2. Forkliftag® Insert showing checklist, and signifying FIT FOR USE
3. Inspection records on reverse of Forkliftag® insert

Status inserts are also available
