

Pelstat Static Locator

Product Images

Description

- Compact, easy to use static locator
- Detects and measures static potentials from zero to $\pm 25,000$ Volts
- Three range buttons, 1kV, 5kV or 25kV at a distance of 6" from the static source
- For measurements at distances other than 150mm a conversion chart is provided
- Supplied with a 9V battery, a ground lead and a distance/voltage conversion chart
