

Luxo Wave II Illuminated Magnifier

Product Images

Description

Two 7W compact fluorescent lamps provide shadow-free magnification. 3D magnification is possible with only a single light source in operation

- Rectangular lens enables viewing with both eyes
- Comes with a 3-diopter lens, 4-diopter and 8-diopter lenses also available
- Can be moved in three directions, horizontally, vertically and laterally
- Two symmetrical transformers to minimise electronic noise
- Arm Length: 760mm
