

Bago Lift In Bag Holder

Product Images

Description

- The Bago Lift In Bag Holder is used for fast loading by Litter Pickers eliminating the problem of trying to hold open and load a sack.
- The Inset hand hold of the frame provides a comfortable grip even when carrying a fully loaded sack.
- The Bag is firmly secured onto the frame by flexible tubular ring.
- The Frame is formed in black rigid PVC and bag retainer tube is made of thermoplastic rubber.
- Suitable for bags/sacks with a neck width of 600mm+.
- Easy change of sack.
- A second smaller sack can be loaded also to sit inside the larger sack.
