

Adam Equipment LHS Crane Scale

Product Images

Description

Designed for industrial applications, the LHS is the best choice for suspension weighing of heavy items. Designed with safety, performance and security in mind, these hanging scales offer bright red LED displays that are easy to see in any lighting conditions, including outside. A heavy-duty hook with a safety catch keeps items in place and the display unit rotates 360 degrees, giving the best viewing angle. The LHS weighs in kg, lb and N.

- Selectable readability for different environments
