

Bonkote Optional Heater Nozzle for Point Soldering Machine

Product Images

Description

- Accurate temperature controlled by CPU digital circuit ($\pm 1^{\circ}\text{C}$)
- Solder flow stand-by function shortens the tact time for higher efficiency
- One-Touch nozzle lock lever assures safe and easy nozzle change
- Full area fender reduces solder dispensation
- DC Brushless motor to control flow level
- Solder bath unit style is designed for easy replacement and maintenance
- Easy targeting with new laser pointing (TOP 375-375SP)
