

EFD Ultra 1400 Dispensing Units

Product Images

Description

The versatile, easy-to-use Ultra 1400 dispenses accurate, consistent deposits. Helpful Teach function lets the operator establish deposit size, then stores time required for automatic, repeatable results

Key Features:

- Dispenses all assembly fluids
- Vacuum control for watery-thin fluids
- Digital display of dispense time, with microprocessor control
- Choose from three modes of operation: Timed, Steady or Helpful Teach for initial deposit setup
- Compatible with all EFD Ultra components
- Compact, stackable design takes less space on the benchtop
- Versatile barrel holder mounts left or right based on operator preference
- EFD 1440: 0-100 psi (0-6.9 bar)
- EFD 1415: 0-15 psi (0-1.0 bar)
