

EFD Ultra 2400 Dispensing Stations

Product Images

Description

- Applies accurate, consistent amounts of adhesives, lubricants, silicones, epoxies and other fluids in benchtop assembly processes – from neat, controlled beads to uniform dots as small as 0.10mm (0.004") in diameter.
- Unique internal pressure reservoir reduces cycle time and improves deposit control
- Automatic voltage regulation from 85 to 265 volts, with universal power plugs
- Automatic U.S./metric units conversion.
- Security lockout with tamper-proof passwords.
- Flexible syringe barrel mounting, workstation lighting, plus other beneficial tools available to suit your specific applications.
- EFD 2400: 0-100 psi (0-6.9 bar)
- EFD 2415: 0-15 psi (0-1 bar)
- EFD 2405: 0-5 psi (0-0.3 bar)
