

Pelstat Anti-Static Bubble Bags

Product Images

Description

Pelstat Anti-Static Bubble Bags offer protection for expensive electronic equipment from both static and physical damage. They can be used to transport electro static sensitive devices such as circuit boards

- Designed to dissipate charges in LDPE, LLDPE and HDPE
- Semi-transparent bag aids with ease of content identification
- Pink in colour to signify anti-static properties
- 1" flap with self-seal closure, no need to heat seal
- Available in 7 standard sizes in small bubble version
- Other sizes available to order

*Please note some PN's are available in different quantities. See list of PN's below and the units they are available in.
