

Peltec Metal Jerrican

Product Images

Description

- Made from 0.9mm thick pickled sheet-steel and are lined with a petrol-resistant coating to prevent corrosion
- They have a unique wide-channel breather for smoother pouring and have a patented locking-pin cap to guard against accidental opening
- These Jerry Cans also feature a completely leak-proof Bayonet closure
- A flexible metal spout is available as an optional accessory to fit either size can
- Available in 10 Litre or 20 litre capacities
