

Polyco Grip It Oil C5 Gloves

Product Images

Description

The Polyco Grip It Oil C5 Gloves have been designed with both comfort and safety in mind, with a dual nitrile coating and contoured design with soft seamless liner. Ideal for several industries, the Grip It Oil C5 Gloves can be used in engineering and manufacturing, construction and utility, food manufacturing and prep, waste management and local authority and automotive sectors

- Made from HPPE (high performance polyethylene) and glass fibre
- Hi visibility design for increased visual awareness
- Cut resistant
- Elasticated knitted wrist for a secure fit
- The full coating first layer is soft and resilient for optimum dexterity
- Second palm coating later with microfoam bubbles enables increased resistance to oils and maximises grip
- EN388:2016 4X44D
