

Reliance Elastic Adhesive Bandage

Product Images

Description

The Reliance Medical Elastic Adhesive Bandage is manufactured with a traditional and powerful zinc oxide adhesive. Providing firm support, it can be applied directly to the skin or under wrap.

- Conforms comfortably to body
- Offers support to weak joints and sprains, including ankles and knees
- Readily cut and easily unwound, it allows for quick application
- Suitable for sports and occupational injuries
- Feathered edge and centre line guidance for even application

We stock a wide range of Reliance Medical first aid products and offer free delivery on all orders over €50
