

Texwipe Mini AlphaMop&ICT Replacement Covers

Product Images

Description

Texwipe AlphaMop™ has been specifically designed for use in cleanroom and critical environments. Manufactured using the same material as the Texwipe AlphaWipe®, the AlphaMop™ offers effective cleaning and low particle generation making it the ideal choice of cleanroom mop for any application

- Replacement covers for the Isolator Cleaning Tool/Mini AlphaMop
- Available in 100% polyester or microdenier
- Each package includes covers and pads for an optimal fit
- Double-bagged for easy introduction into cleanroom environments
- Ideal for cleaning processes requiring low particle, extractable and ionic contamination
- Microdenier fabric provides enhanced particle lifting, streak-free cleaning, plus enhanced sorption for working with solutions
- Available in standard or sterilised versions
- Sterile option is gamma irradiated to a Sterility Assurance Level of 10⁻⁶ in accordance with AAMI TIR33: 2005

Texwipe mops are specifically designed for use in cleanrooms and offer maximum contamination control.
