

Master Lock Snap-On Hasp

Product Images

Description

The Master Lock Snap-On Hasp is constructed from anodized aluminium and stainless steel for combined corrosion resistance and strength. The Snap-On Hasp fits more lockout points than alternative rivet-hinge labelled lockout hasps

- Rigid and durable construction allows for lockout of up to 8 workers at a lockout point
- Keeps equipment inoperative while repairs or adjustments are made
- Snap-On Hasp Combines multiple-person lockout and tagout identification
- Equipped with hi-vis, re-usable, write-on safety labels (English, French & Spanish)
- Available in Spark-proof Aluminium, and Heavy-Duty Steel
- Unit: Each
