## Description

---

The Dependable Protective Spraying Kit is the ideal personal protection kit for all manner of agricultural and domestic spraying activity. Our Protective Spraying Kit is fully compliant with the Sustainable Use Directive and Department of Agriculture regulations for reducing risk and impact of pesticides, and to encourage sound spraying practices in both domestic and professional environments. Our Protective Spraying Kit is ideal for spraying grassland, arable crops, stubborn weeds, or any spot-spraying with a knapsack or lance. Whatever your spraying protection requirements, our Protective Spraying Kit will have you covered

Kit includes:

- 3M 6000 series half mask respirator (3M6200M) x 2
- 3M gas and vapour filter (3M2138) x 2
- Chem-Protekt coveralls with hoods for full body protection (83624) x 2
- Pelsafe Economy Safety Glasses (PSF3170C) x 1
- Disinfectant wipes (AZOCL075) x Tub of 200
- Nitrile powder-free gloves (81818) x Box of 100
- Each item is listed on the site with more detailed specification if required

We can customise any kit to your specific requirements from our broad range of protective spraying products. Contact us for more information.
