

Brecknell Pallet Weighing Scale

Product Images

Description

The Brecknell Pallet Weighing Scale is a strong, durable unit specifically designed for weighing pallets. The Pallet Weighing Scale is fitted with a lifting handle and roller wheels for portability and easy storage.

- 2500kg capacity
- Standard size: 1200mm long with 800mm gap between legs
- Used with Brecknell 750 weight indicator scales which have RS 232 interface for connecting to printer and will enable you to piece count and custom unit weights if required
