

DDM Novastar Hot Plates

Product Images

Description

- Used for a variety of heating applications which include: preheat, rework, reflow and curing of printed circuit board assemblies
- 3/4" thick aluminium heat plates with abrasion resistant
- Teflon™ coating for precise, even heating
- Programmable digital temperature controller precisely and automatically regulates temperatures
- APSCFSL Model has a single 13" x 13" plate,
- APSCFDL Model is the same as FSL but with two independent temperature controls and two 13" x 6.4" plates
