## **General Electric Silicone Rubber Adhesive Sealant**

## **Product Images**

## **Description**

The General Electric Silicone Rubber Adhesive Sealant is ideal for use in direct contact with corrosive metals, electrical and electronic equipment applications, and finishes

- RTV162 has a paste consistency
- Due to a non-corrosive cure mechanism, it produces a tough rubber solid on exposure to atmospheric moisture
- RTV160 is also available this is a slow cure version of the RTV162
