

Fluke 1550B Series MegOhmMeter

Product Images

Description

The Fluke 1550B Series is a digital insulation tester capable of testing switchgear, motors, generators and cables at up to 5000 V DC. It can be used for a wide range of tests: from simple spot checks to timed tests and breakdown tests. Measurement storage and PC interface software make it ideal for preventative maintenance

- Guard system eliminates the effect of surface leakage current on high resistance measurements
- Ramp function (0 - 5000 V DC) for breakdown testing
- Includes Quicklink 1550B Software and Optical Interface cable
- Safety Conformance
- All inputs protected to IEN 61010-1, CAT III 600 V. 1550B is compliant to EN 61557 parts 1 & 2
- Product is POA (Price on Application)
