

Leica Cross Line Laser Level Kit

Product Images

Description

The Leica LINO L2 Self-Levelling Laser provides a sharp, precise, bright red laser beam, both in horizontal and vertical axis. With projection and levelling accuracy of $\pm 1\text{mm}$, the Leica LINO L2 is one of the most precise instruments in its class

- Equipped with Leica's Power Range Technology to achieve an excellent visible laser line at greater distances
- When utilised with the Leica LL2 detector eye, the range can be increased to 30m inside or out
- Quick and easy to operate, with a magnetic multifunction adapter supplied (can be utilised as a minitripod or as a wall bracket)
- Includes a target plate - a very useful tool when a projection surface is required in an unenclosed space
- Pulse function with power-saving mode
