

Micronova M-Zone Micro Dispenser

Product Images

Description

The Micronova M-Zone Micro Dispenser offers touch-free dispensing and a simple installation. The M-Zone Micro Dispenser is a gravity fed unit that relies on a simple pump action – meaning easier bottle insertion and more efficient battery use

- Activated by an electronic eye, which dispenses a predetermined amount of liquid when the infrared beam is interrupted by a hand
- Battery operated (requires 4 x AA batteries)
- Design of unit means there are no leaks or drips
- 120mm x 162mm x 128mm
- Can be refilled with RHP8680 – Reliable Sanitising Hand Gel with Pump
