

Pelsafe Heavyweight Chemical Spill Pads

Product Images

Description

The Pelsafe Heavyweight Chemical Spill Pads have been specially designed for acids, bases, corrosives and chemical spills. These Heavyweight Chemical Spill Pads last twice as long as ordinary mats, leading to fewer change-outs

- Chemical resistant - won't degrade or cause dangerous reaction upon contact with corrosive spills
- Suitable for chemicals with high concentrations such as 98% sulfuric acid and 30% sodium hydroxide
- Composed of eight layers of 100% thermally bonded polypropylene
- Heavyweight construction and highly absorbent - up to 28.16 oz per pad / 22 gal. per bag
- Exclusive dimple pattern speeds wicking of liquid for faster clean-up
- Pink colour is easily distinguishable to ensure workers use the correct mats during a spill emergency
- Anti-static treated for ESD protection
- Flame-resistant material
- 15" x 19"
- Bag 100
