

Superior UltraSolv Rigid Oval Tip Swabs - Pack 500

Product Images

Description

- High strength and abrasion resistant UltraSolv® foam tip minimizes particle shedding due to abrasion, common with standard swabs
- Extremely low ionic and NVR levels
- Less than 2000 .5µ to 25µ particles per swab
- Thermally bonded to ensure no adhesive residue and minimum particle generation
- 21MM x 11MM head (L x W)
- Pack 500
