

Progressive Electronics Inc. Tone/Probe Kit

Product Images

Description

The Progressive Electronics Tone / Probe Kit is a comprehensive set of tools for wire identification. The Tone / Probe Kit consists of a cable tone generator, inductive probe and comes with a nylon belt-loop case

Cable Tone Generator Features:

Inductive Probe Features:

- +7dB output
- Works up to 50,000 ft
- Tones through telecom DC voltages
- RJ11 plug
- AC voltage, continuity and polarity LED
- Standard alligator clips and RJ11 plug

Inductive Probe Features:

- Recessed ears for butt-in testers
- Adjustable volume control for precise tracing of individual wires

Both units require 4.9V battery (not included)
