

3M Filament Packing Tapes

Product Images

Description

3M's Filament Packing Tapes are reinforced with continuous glass filaments, giving enhanced strength and durability to the tape. The Filament Packing Tapes are ideal for any packing or bind needs including edge reinforcement, bundling and pallet stabilisation

- Single weave filament tape or stronger cross weave type for additional strength
- Bi-axially orientated polypropylene backing provides abrasion, moisture and scuff resistance
- Adhesive is formulated to adhere adequately to fibreboard surfaces
- Total Thickness: 131 microns (0.131mm)
- Colour: Transparent
- Adhesion to Stainless Steel: 9.6 N/cm
- Tensile Strength: 250 N/cm
- Elongation at Break: 8.5%
