

SpillTech Fine Fibre Mats

Product Images

Description

The SpillTech Fine Fibre Mats are constructed from densely woven, small diameter strands of fibre to increase surface area enabling extra grip for secure and safer walking. The Fine Fibre Mats have high absorbency, with large-diameter Meltblown polypropylene fibres that creates a high-loft inner layer

- Excellent in industrial cleanup applications
- Polypropylene composition
- Perforations for tearing pads into different sizes depending on requirements / application
- Yellow: Hazmat
- White: Oil Only
- Grey: Universal
