

Skipper Road Cone

Product Images

Description

The Skipper Road Cone is a highly stable and durable option, with an incorporated helix that deflects wind away. Suitable for use in many applications and industries, the Road Cone offers greater reflectivity than other road cones due to its glass bead sleeve design

- Two-piece cone
- Base design can facilitate an optional weight ring to provide increased stability
- Helix deflects wind away
- Highly reflective due to innovative glass bead sleeve design
- 555mm x 750mm x 555mm (W x H x D)
- 5.4kg
- Conforms to BS EN 13422
