

Moldex FFP3 NR D Charcoal Respirator - Pack of 10

Product Images

Description

Moldex FFP3 NR D Charcoal Respirators are made with a layer of activated charcoal for protection against low concentrations of gas, odour and ozone. Packaged in a box of 10, Moldex FFP3 NR D Charcoal Respirators have an ergonomic design for an excellent fit and seal

- FFP3 protection against particles, mist, toxic dust, and aerosols
- Filters up to 98% of incoming air
- Activated charcoal layer provides workplace-level protection from acid gases, odours, organic vapours and ozone
- One-way Ventex Valve reduces breathing resistance and lowers amount of moisture and heat inside the mask
- Polypropylene DuraMesh for a strong and durable structure that will not bend or warp
- Flexible nose seal for close fit
- Clip to fasten and adjustable strap for easy on and off
- Inner nose cushion and a skin-friendly woven interior ensures high wearing comfort
- CE certified
- Conforms to EN 149:2001 + A1:2009
- Pack of 10
