

3M SecureFit 100 Safety Glasses

Product Images

Description

The 3M SecureFit 100 Safety Glasses are durable yet comfortable, with Pressure Diffusion Temple technology and a wraparound design. Suitable for wearing in a range of applications and industries, the SecureFit 100 Safety Glasses feature anti-scratch and anti-fog coating on the lenses

- Slim, rimless ocular frame
- Wraparound design prevents slipping and improves security of fit
- Temple design with slotted ribs provides optimum pressure balance to allow the temples to flex and self-adjust
- Pressure is applied to the back of the head rather than the temples for a comfortable fit, even during quick head movement
- Grey lenses provides protection from sun glare
- Anti-scratch coating
- Anti-fog coating
- Ideal for combining with 3M Protective Earmuffs due to flat and flexible temple design
