

3M Speedglas G5-01 Welding Helmet with Adflo Powered Respirator

Product Images

Description

3M Speedglas G5-01 Welding Helmet with Adflo Powered Respirator offers high-level protection of eyes, face, vision and respiration for heavy duty and general welding application. Fully adjustable with variable settings, 3M Speedglas G5-01 Welding Helmet uses a built-in Adflo Powered Respirator for combined and complete protection

- Removable, flip-up welding filter over clear protective visor
- Respiratory protection from both gas and particles with the built-in Adflo Powered Air Purifying Respirator System
- Auto-darkening filter has variable dark shades 5, 8-14 for control during complete welding process
- Variable dark states colours - choose your preference between cool, warm and natural balance
- Speedglas Natural Colour Technology provides excellent clarity and makes filter seem lighter
- Clear protective visor is curved for optimal field of vision
- Suitable for general and heavy duty welding, grinding, cutting, arc welding
- Innovative G5-01 helmet duct system allows you to control direction of airflow towards face, visor, or a combination of both
- Audio and visual alarms for respirator battery status
- Helmet is fully adjustable for optimum comfort and fit
- Supplied with a carrying bag
