

3M G3000 Safety Helmet

Product Images

Description

The 3M G3000 Safety Helmet offers excellent ventilation and a good field of vision due to its short peak. A convenient Uvicator sensor disc advises when the G3000 Safety Helmet has been over-exposed to UV radiation and needs to be replaced

- Softly rounded design helps prevent parts snagging on cables or branches
- Ventilation holes for increased wearer comfort
- Short peak provides improved upwards visibility
- Plastic Sweatband
- Ratchet suspension
- Uvicator (UV indicator) highlights when the helmet has been over-exposed to UV radiation and requires replacement
- 310g
