

Metro Benchside PCB Holding Carts

Product Images

Description

- Safety and convenience in a heavy-duty mobile unit
- Adjustable panels with horizontal slides feature 5/8" spacing for high density loading
- Can hold up to 53 full size PCBs. Ideal for transporting work in process and storing large quantities of boards
- Open chrome-plated steel panels allow for airflow and conductivity
- Slides accept boards up to 1/8" thick. Each cart consists of: 4 posts, 4 poly castors: (2 brake, 2 swivel), 2 side panels, and grounding cable
- Model 534 has maximum PCB size of 22" X 30" and model 554 has maximum PCB size of 22" X 42"
- Additional adjustable double-sided centre panels available, to create extra rows when larger quantities of smaller PCBs are being handled and must be ordered separately
