

Stanley Surform Plane

Product Images

Description

The Stanley Surform Plane, with replaceable blade, is able to handle material that would normally ruin a normal plane, such as aluminium, copper, plastics, ceramics, laminated surfaces and other metals. The Surform Plane measures 250mm in length

- Replaceable Surform blade means nothing to sharpen, nothing to set and nothing to adjust
- Specially shaped teeth bite into material and allow shavings through without clogging
- Solid moulded plastic handle and die cast body
- Comes with 250mm standard cut flat blade
- Standard and Fine cut replacement blades available
