

3M Peltor Optime Comfort Helmet Mounted Earmuffs

Product Images

Description

The 3M Peltor Optime Comfort Helmet Mounted Earmuffs offer effective hearing protection without compromising on wearability, with soft wide cushions that reduce pressure on the ears. With an attenuation rating of 26 dB, the Optime Comfort Earmuffs are suitable for use in a wide range of industries and applications

- Low profile cup
- Wire headband design
- Large space inside each cup reduces moisture and heat build up
- Soft, wide cushions for optimum wearer comfort
- Reduces noise exposure level by 26 dB, can be used in noise level of 87-98 dB
- P3E helmet attachment for effective helmet mounting without the need for an adapter
