

Kratos Safety Restraint Kernmantle Rope Lanyard

Product Images

Description

The Kratos Safety Restraint Kernmantle Rope Lanyard is robust and durable, with a breaking strength of 22 kN and an abrasion resistant thimble that protects loops from any metallic contact damage. The Kernmantle Rope Lanyard features two connectors - a steel snap hook at one end and a steel scaffold hook at the other

- 11MM diameter polyamide kernmantle rope
- Abrasion resistant thimble protects loops from being damaged by metallic contact
- Strong, transparent covering sleeve protects the stitching and allows for easy inspection before use
- 1.5M length
- Breaking strength 22kN
- 1 x steel snap hook at one end, 1 x steel scaffold hook at other end
- Conforms to EN354: 2010
