

Delvo Transformerless Torque Screwdrivers

Product Images

Description

The Transformerless Torque Screwdrivers offer a brushless motor for long life and less maintenance. The cover included on the Torque Screwdrivers prevents accidental changing of the torque settings, with a transformerless design boosting operator mobility

- Brushless motor for long life and less maintenance
- Low vibration and low noise
- Easy thumb-switch for forward/reverse
- Available in push-to-start or with a trigger start
- Input Voltage: 230V
- Torque (Nm) - Low Torque Spring*2: 0.4 - 1.6
- Torque (Nm) - High Torque Spring*3: 1.2 - 3.0
- Machine Screw Size (mm): 2.6 - 5.0
- Tapping Screw Size (mm): 2.5 - 4.0
- Power Consumption: approx. 45W
- Conforms to CE standards 89/336/EEC, 92/31/EEC, 73/23/EEC
- 700g
- Conforms to CE standards (89/336/EEC, 92/31/EEC, 73/23/EEC)
