

Dependable Profile & Edge Protectors

Product Images

Description

- Flexible, high-visibility (yellow and black) polyurethane foam sections prevent injuries caused by impact, while at the same time protecting goods and equipment
- Ideal for cordoning off hazardous areas (machinery, corners, walls, passageways, etc.)
- Can be easily applied to numerous surfaces, wood, metal, walls, painted surfaces, etc.
- Can be used indoors or outside
- Easy-clean smooth surfaces, will not become dust clogged, unlike foam protectors
- The A, B, C, D and R sections are available in 1 metre lengths
- Sections E, F and G are available in 5 metre lengths
- Sections A, E, C, F and G: Self-adhesive
- Section B: Slots together and can be bonded with a special glue if required
- Section D: To be glued or screwed (using 3 screws)
- Section R: Self-adhesive on pipes of diameter 40 to 70mm
