

Cofra Lamar Slip-on Safety Boots

Product Images

Description

The Cofra Lamar Slip-on Safety Boots are water-repellent, breathable and non-slip, making them ideal for wearers working in the food industry. The Lamar Slip-on Safety Boots also feature steel toe caps and abrasion resistant, breathable linings

- The steel toe caps are impact resistant up to 200 J and compression resistant up to 1500kg
- Adjustable, elastic-velcro fastenings
- Breathable, water repellent Newtech® uppers
- Abrasion resistant Texelle® internal linings absorb and release moisture
- Antistatic EVANIT® footbeds have a high bearing capacity with variable thickness for support, and breathable fabric coatings
- Single-density polyurethane soles are slip resistant and perfumed
- Upper boots are easy to clean with water up to 40°C and neutral soap
- S2, SRC
- EN ISO 20345: 2011
