Description

The Superior Microporous Anti-Static Shoe Covers are strong and durable while maintaining breathability for wearer comfort. A liquid barrier treatment on the external side of the upper provides enhanced protection, while the non-slip PVC sole of the Microporous Shoe Covers provides stability while moving through controlled areas

- Excellent non-slip sole with stitched seams
- Liquid barrier treatment on external side of upper for additional protection
- Microporous material (spunbound polypropylene with polyethylene laminate) is strong and durable, yet breathable and comfortable to wear
- Nylon elastic closure
- Stitched seams
- Anti-static upper and sole
- Latex free - suitable for those with a latex allergy or sensitivity
- Suitable for use in laboratories, controlled environments and ISO Class 5 - 8 cleanrooms
- Type PB 6 - Partial body protection according to EN 13034
- Case 400 (50 pieces per bag, 8 bags per case)
