

Ansell Alphatec 19-026 Heavy-Duty Neoprene Gauntlets - Size 10

Product Images

Description

The Ansell Alphatec Heavy-Duty Neoprene Gauntlets provide an enhanced defence against thermal risks and hazards, offering protection from intermittent contact with hot surfaces up to 180°C/356°F. The high-grade neoprene coating on the Alphatec Heavy-Duty Gauntlets protects the wearer during chemical and mechanical applications, and a grip-enhancing design offers greater dexterity and a secure grip

- Double-insulating thermal liner for additional protection against thermal risks and hazards
- Protects against intermittent heat contact up to 180°C/356°F
- Coated with neoprene for advanced chemical resistance and withstands oil and grease
- Rough finish helps with dexterity and offers a secure grip
- Gauntlet cuff
- 660MM length
- Silicone and latex free
- Anti-static (EN1149)
- Suitable for use in many environments and applications such as metal fabrication, machinery and equipment handling, automotive and chemical industries
- Size 10
- EN388: 2016 3122B; EN 511: 121; EN ISO 374-1: 2016 Type A: AKLMPT; EN ISO 374-5: 2016; EN 407: 32XX4X; ANSI 4 ABR; ANSI A2 CUT
