

Superior Cleanroom Kneeling Pad

Product Images

Description

The Superior Cleanroom Kneeling Pad offers exceptional support and comfort for tasks which require extended kneeling or back support. The closed cell PVC foam ensures both durability and resistance as well as sustainability for use in various work environments and applications

- Features indentations that cradle the knees while also offering back and side support when flipped over
- Constructed using Closed Cell Foam for proven resistance to water, contaminants, oil, UV rays, glue and more
- This knee pad has no cut edges or exposed foam cells to ensure it complies with cleanroom requirements
- Features anti-slip surfacing on the bottom of the pad to provide extra stability while working
- Lightweight design (544g) with built-in handle for ease of transport
- Dimensions: 46cm x 34cm x 5cm (18" x 13.5" x 2")
