

Rubbermaid Microfibre Tube Wet Mop Head

Product Images

Description

The Rubbermaid Microfibre Tube Wet Mop Head has been designed to withstand abrasive and heavy-duty scrubbing, with excellent absorbency and durability. The innovative tube design of the Microfibre Mop Head reduces drag for increased productivity, while the PVC-coated mesh headband prevents moisture retention and resists chemicals

- Designed with a blend of continuous-filament microfibre and polyester to give superior absorbency and release characteristics
- Tube design reduces drag for increased productivity
- Reduced fraying, linting and unravelling due to looped ends
- Double-stitched tailband for improved durability and no streaking
- PVC coated mesh headband stops moisture retention and resists chemical for a longer product life
- 1" headband
- Colour: Green
- Compatible with Rubbermaid Kentucky Mop Handles
