

Wez Suisse Stackable Containers ESD Safe - Flat Base

Product Images

Description

The Wez Suisse Stackable Containers are the ideal transport, storage and working aid when manufacturing electrostatically vulnerable goods, particularly in the electronics industry. The Stackable Containers are highly durable and have a flat base

- Extremely rugged design with reinforced ribs
- Vertical walls ensure optimised space utilisation
- Holes in the container edges allow connection with other system components
- Relatively light, easy to clean and quiet
- Allow an average load of 500kg in a container stack
- Flat base
